DETAILED ACTION

1. Claims 9-11, 18-19 and 22-23 are pending in this application.

Election/Restriction

2. Applicant's election of Group I (Pyrazolo[1,5-a]pyrimidines where A = K = G = E = C and J = D = N) in the reply filed on 10/17/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 10, 18 and 22 are withdrawn from prosecution.

3. The claims are drawn to multiple inventions for reasons set forth in the restriction requirement. The claims are examined only to the extent that they read on the elected invention. Cancellation of the non-elected subject matter is recommended in response to this Office Action. It is recommended that applicants replace the variables A, J, K, G, D and E with substituents as it was done in US patent 6,900,217.

Claim Objections

4. Claim 9 is objected to because of the recitation of "e.g., chloro fluoro, iodo or bromo" for the definition of R⁷. It is recommended that applicants delete "e.g.," to overcome this objection.

Information Disclosure Statement

5. Applicant's Information Disclosure Statement, filed on 07/25/2005 has been acknowledged. Please refer to Applicant's copies of the 1449 submitted herewith.

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 9, 11, 19 and 23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S.

Patent No. 6,900,217. Although the conflicting claims are not identical, they are not patentably distinct from each other because there is significant overlap between the instant claims and claims 1-8 of U.S. Patent No. 6,900,217 when B is for example NR₁R₂, A =CH or CH₃; J = D = N; R⁵ = phenyl or pyridyl, etc. Note that the core structure in both cases are the same and the five species recited in claim 6 of U.S. Patent No. 6,900,217 are the same species recited in claim 23 of the instant claim.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9, 11 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention:

a. In claim 9, the proviso (d) "when G is carbon, it must be double bonded to E" is not clear. Since D is defined as a trivalent (i.e. N) and not as divalent e.g. NH or Nalkyl, it is assumed that there would be a double bond between D and E. Thus, it is unclear how there should be a double bond between G and E, when G is carbon? Note that if there is a double bond between G and E, there would be a dangling valency, since D is defined as a trivalent nitrogen.

b. Claim 19 is rejected because it depends from claim 1. Claim 1 is a cancelled claim.
